

LANTIS[®] BARRIER

PEDESTRIAN BARRIER

The Lantis Barrier, made from recycled plastic, can be used in parades, sporting venues, ticketing lines and much more. Lighter than steel, yet significantly more durable, the Lantis Barrier is THE replacement for metal pedestrian barriers.

PRODUCT RANGE

LANTIS[®] BARRIER

Usage Benefits

- ▶ Lightweight and portable solution for easy installation
- ▶ Stacks compactly, easily transported and stored by 1 person
- ▶ Clearly define access and thoroughfares in high traffic area
