

STRONGWALL

PEDESTRIAN BARRIER & TEMPORARY FENCING

A robust plastic, non-conductive safety barrier with typical applications at events and on construction sites to ensure maximum safety to both members of the public and site workers.

PRODUCT RANGE

STRONGWALL

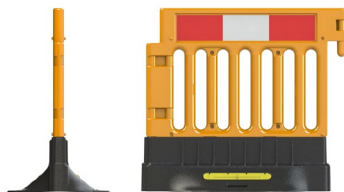

Usage Benefits

- ▶ Create a stable barrier in high traffic areas without additional ballast
- ▶ Breaks down into three components for compact storage and transport
- ▶ Keep worksites secure with 6ft tall anti-climb fencing
- ▶ Be confident that your fence line will stay in tact with connections which are molded to the barrier
- ▶ Inquire about minimum order quantities for customizations
- ▶ Non-conductive plastic to keep your worksite and the public safe around live sites
- ▶ A closed loop recycling product: made using recycled PVC
- ▶ ADA compliant base available
